5. Structure of the Ph.D. Programme

5.1. Stages of the Programme

The programme consists of three stages: Course Work, Comprehensive Exam and Thesis.

The course work is spread across six terms. All Ph.D. students, irrespective of their areas of specialization, take a set of compulsory courses, as decided by their respective areas. All students are also required to take program-wise compulsory courses and electives of their choice.

Upon completion of the course work, the students take the Area Comprehensive Qualifying Examination (ACQE). The ACQE tests whether the student has obtained a satisfactory level of knowledge in his/her field of specialization and ready to move to the thesis stage. The structure of ACQE would be decided by the respective Areas. For more details regarding ACQE refer to Section 5.4

Once (and, if and only if) a student passes the ACQE, he/she enters the Thesis stage. The Thesis stage consists of developing a thesis proposal, for which the student identifies a thesis topic, forms a Thesis Advisory Committee (TAC), presents a seminar on the thesis proposal to the TAC, and gets the thesis proposal approved by the TAC. Then the student works closely with the TAC on his/her thesis. On completion of the thesis research, the student submits the thesis, give a seminar, and defends the same.

5.2. Direct entry to the second year

Candidates who have already completed two-year full-time PGP completed in last 10 years from IIMs with minimum 60 percent marks or equivalent and other exceptional candidates with a two-year full-time Post Graduate Degree in Management (as decided by the Ph.D. committee) may be allowed direct entry to the second year of the programme. The above candidates are provided a waiver for the first year PGP courses. However, the candidates must undertake nine credit compulsory Ph.D. courses (Qualitative Research, Quantitative Research, and Econometrics) during term IV, V, and VI, respectively. As the above candidates are considered direct second-year candidates, the program's duration, the timelines for various academic requirements, and institutional support availability will be adjusted accordingly.

The direct second-year entry students should perform their summer term paper and two non-credit compulsory courses after scheduled completion of Term VI. Hence their ACQE will be

within 3 months of the scheduled completion of term VI. The Thesis Proposal Submission deadline will be within 9 months of their completion of ACQE.

All other academic timelines, including the availability of institutional support and frequency of progress evaluation, will be according to the following rule:

If 'n' is the timeline (in years) for an event for the regular candidates, the timeline will be 'n-1' years for the candidates who enter the second year directly.

This form has to be submitted to the Ph.D. Office well in time before the beginning of each term duly signed by both the student and the Academic Advisor.

In the case of Ph.D. electives, students are expected to make an informed decision of picking up a course by looking at the course coverage, material, and talking to the faculty offering the course. In case the student feels after the first two sessions of 90 minutes each (for 3 credit course) that the course does not match expectations, the student may drop the course, duly informing the Ph.D. office in writing through his / her academic advisor. However, he/she will not be allowed to take any course in lieu of the dropped course. A course, if not registered for by any student until the term starts, will not be offered.

- i. Attendance is compulsory for all courses.
- ii. Students involved in proxy will be penalized of two class attendances.
- iii. Students are expected to attend all the classes of a given course. However, to accommodate short-term contingencies, a minimum of 80% attendance for classes held is stipulated for a course.
- iv. In view of the varying nature of pedagogy in different courses, some courses may not have classes for a part of a Term, and students may be required to do project work during this period. However, in such cases students will be required to submit interim/final project reports, design documents, or demonstrate part of the project under development. In such cases, the fulfilment of attendance criterion would be decided by the course coordinator.
- v. For a student, whose attendance falls short of 80%, the penalty will be as follows:
Let α = the percentage of attendance of a student in a course, obtained after rounding off up to the second decimal place.
 - a. If $\alpha < 50.00$, the student will be awarded a permanent ‘F’ in the course.
 - b. If $50.00 \leq \alpha \leq 59.99$ then the grade of the student will be adjusted as shown in the following table:

Actual grade	A+	A	A-	B+	B	B-	C	D	F
Adjusted grade	A-	B+	B	B-	C	D	D	D	F

- c. If $60.00 \leq \alpha \leq 79.99$ then the grade of the student will be adjusted as shown in the following table:

Actual grade	A+	A	A-	B+	B	B-	C	D	F
Adjusted grade	A	A-	B+	B	B-	C	D	D	F

If a student's attendance falls short of 80 percent and he/she misses the mid-term/end term exam, the penalties applicable in both cases would be applied, unless the student's attendance fell short because (s)he suffered from a major ailment requiring prolonged bed rest or hospitalization.

Anyone who is found to have fudged documents in this regard will be summarily expelled from the Programme.
 - Period of ailment, as certified by appropriate medical authority, will not be counted towards attendance calculation.
 - However, if the period of major ailment exceeds 50% of sessions in a term, the student must withdraw from the course (**only after approval from the course instructor and advisor**) on medical ground.
 - If a student misses scheduled mid/end term examination during the period of major ailment, make up examination will be arranged without any implication on the final grade, subject to clause (iii) above. There will be no re-examination for these make up examinations.
 - If a student miss component(s) of evaluation, other than mid/end term examination, in a course during the period of major ailment it will be up to the respective Course Coordinator/ instructor to decide how those components can be compensated for, if at all.
 - For any other case(s) not included above, the same would be decided upon by the PGP Committee/PC for PGP/Ph.D. Courses

- vii. The above rules will override any individual course specific rules for attendance set by a course instructor.

In case, a student has left the hostel after obtaining approved *a priori* leave of absence from Ph.D. Office due to illness, or sudden serious illness of parents, spouse or child, he/she will have to produce a certificate from a Registered Medical Practitioner to be eligible to appear in the make-up/re-examination. This certificate will have to be submitted on the day the student returns to the Institute, or the first working day that follows, in case the student returns to the Institute on a holiday. In case, a student seeks permission on the ground of demise of parents, spouse, or child, he/she will have to produce the death certificate to be eligible to appear in the make-up examination. The final discretion regarding eligibility for make-up/ re-examination will lie with the PC.

5.3.11. Procedure for Review of Answer Scripts and Revision of Grades

- i. The PGP Office will announce the grades in all courses offered during terms I, II, IV, and V as and when these are received. However, the grades in courses offered during terms III and VI will be announced by the PGP Office, after grades for all the courses for Term III /Term-VI are received by the PGP Office. The Ph.D. Office will announce the grades in all courses as and when these are received.

- ii. The PGP/Ph.D. office will announce a schedule for display of corrected answer scripts for each of the six terms. If any student feels that a review of answer scripts is necessary either for re-evaluation or for correction of marks obtained, a request for the same should be made in the prescribed form with a fee, Rs.500/- (Rupees Five Hundred only) payable by cheque drawn in favour of “IIM – Bodh Gaya”. The fee is refundable if there is a change in marks/grades obtained. Under no circumstances, however, can the answer scripts be taken away by the students from the custody of the PGP/Ph.D. office. All answer scripts are retained by PGP/Ph.D. office after re-evaluation is over and will be kept in the custody of PGP/Ph.D. office. Answer scripts will under no circumstances be handed over to students after re-evaluation.
- iii. If a student is unable to peruse his answer scripts during the scheduled time, PGP/Ph.D. office may arrange to show the answer scripts on a later date with the approval of the Chairperson, PGP/Ph.D. Illness or absence from Campus on approved (by Chairperson Ph.D.) leave will be regarded as valid reasons for the student’s inability to verify answer scripts on scheduled dates.
- iv. PGP/Ph.D. Office will exhibit answer-scripts at the first convenient date immediately on receipt of the same.
- v. Students should not directly approach an Instructor with requests for re-evaluation or for higher grades. All requests for re-evaluation of papers should be routed through PGP/Ph.D. Office.

The students may contact PGP(Ph.D.) office for any examination related queries for PGP (Ph.D.) courses.

5.3.12. Grading System

- i. As agreed in the 5th Faculty Council Meeting dated 20th February 2020, a 10-pointer grading system is being implemented for IIM Bodh Gaya MBA Programme from Academic Year (2020-21) onwards.

For every course, the following grades shall be awarded by the course instructor.

Grade	A+	A	A-	B+	B	B-	C	D	F
Grade Point	10	9	8	7	6	5	4	3	0

The ‘Final CGPA’ shall be a weighted average of the grades obtained in all credit courses. Weights shall be the assigned as per the number of credits for the respective course.

$$CGPA = \frac{\sum_i C_i G_i}{C_i}$$

Where C_i is the credit for subject i and G_i is the grade obtained in subject i .

CGPA to percentage conversion formula for the 10-pointer grading system

If, $9 \leq CGPA \leq 10$,	Percent score =	$93 + (CGPA - 9) \times 7$
If, $8 \leq CGPA < 9$,	Percent score =	$85 + (CGPA - 8) \times 8$
If, $7 \leq CGPA < 8$,	Percent score =	$76 + (CGPA - 7) \times 9$
If, $6 \leq CGPA < 7$,	Percent score =	$66 + (CGPA - 6) \times 10$
If, $5 \leq CGPA < 6$,	Percent score =	$55 + (CGPA - 5) \times 11$

- ii. The grade obtained by a student, who has missed either the mid-term or the end-term examination or both for a course on medical ground (except on Major Ailment) and is eligible to take a make-up exam, will be adjusted downward as followed by the PGP/ Ph.D. office after the Instructor/ Course-Coordinator has submitted the grades:

Actual Grade in the make-up exam	A+	A	A-	B+	B	B-	C	D	F
Grade to be recorded as	A	A-	B+	B	B-	C	D	D	F

- iii. For a Pass/Fail course the letter grade awarded will be either “P” (for Pass) or “F” (for Fail) with no grade point assigned to it.
- iv. A student’s grade in a particular course would be treated as Incomplete (‘I’) if none of the letter grades A+, A, A-, B+, B, B-, C, D, F or ‘P’(for Pass) or ‘F’ (for Fail) for a Pass/Fail course, for him/her is awarded by the Course Coordinator/Instructor in the grade-sheet submitted to the Ph.D. Office.
- v. For CGPA computation and announcement of CGPAs at the end of a Term, all such ‘I’ grades shall be converted into ‘F’ grades.

The Ph.D. office will normally communicate the final letter grades in various courses with the cumulative total grade points to the students. The grades submitted by an instructor to the Ph.D. Office on any segment of evaluation will be final. The instructor will not be called upon to justify his/her grades. A student who may need clarification of his/her grades may discuss with the instructor concerned within a week after receiving the grades.

Important Notes

If the students went under the student exchange program for second-year Ph.D. level courses. In such cases, their grades must be normalized to match the IIM Bodh Gaya grading system.

$$X_{\text{normalized}} = \frac{X - X(\min)}{X(\max) - X(\min)}$$

$$\text{New grade point} = X_{\text{normalized}} * 10$$

e.g. Student grade point = 2.56 out of 4.00

$$\begin{aligned} \text{new grade point} &= (2.56 - 0 / 4 - 0) * 10 \\ &= 6.4 \end{aligned}$$

$$\text{Grade} = \text{B+}$$

Grade	A+	A	A-	B+	B	B-	C	D	F
Grade Point	9-10.0	8-9.00	7-8.00	6-7.00	5-6.00	4-5.00	3-4.00	2.-3.0	0-2.00

5.3.13. Academic Standards for First Year

Students must obtain the following minimum academic standards during the first year (Terms I, II, III, and IIIS) to qualify for promotion to the second year:

- i. A Minimum Average Grade Point of 5.50/10.00 for all courses taken in the first year, AND
- ii. A Minimum Average Grade Point 6.00/10.00 for all Area Level courses, AND
- iii. Not more than 1 'F' OR 2 'D's in all full credit equivalent courses.

The concerned areas would take up the performance review of students who have failed to meet the first year's minimum requirements. Accordingly, a recommendation regarding continual (or otherwise) must be made by the respective Area to the PC that would take the final call.

5.3.14. Summer Term Paper in First Year

At the end of the first year, Ph.D. students may take up Summer Term Paper (STP) or summer project/internship (research/industry) for a minimum of 8 weeks in consultation with their academic advisor. In such a case, the students are expected to begin their STP/project/internship after the end term examination of the third term. At the end of the STP/project/internship, the student is required to submit a certificate of satisfactory performance and completion certificate from the concerned STP/project/internship supervisor.

The summer project/internship (research/ industry) should be guided by a person with Ph.D. The students are advised to do STP in research organisations such as IITs /IIMs/IISc/NITIE/IISER, etc. The expected output is a research project work resulting in a draft publishable paper or

working paper. The students are required to submit the outcome of the STP/project/internship within the stipulated time to the Ph.D. Office with the advisor's approval along with the completion certificate from the organisation where the work was conducted.

STP will be considered as equivalent to 3-credit Area level course for the CGPA calculation and any other such requirements. The STP will be evaluated by the STP advisor himself/herself and one other faculty member to be nominated by the Chairperson (Ph.D. Programme) in consultation with the Ph.D. student's STP Advisor. In the case of unsatisfactory performance in the STP, the Ph.D. student would be given one more chance to submit his/her STP within one month for re-evaluation from the first evaluation date. After two unsuccessful attempts, the Ph.D. student's registration to the program will be cancelled.

5.3.15. Transfer from One Area to Another

After joining the Doctoral Program, a research scholar may apply by December 15th of the first year for change of the area of specialization if s/he so desires. Following conditions need to be fulfilled for change of area:

- The research scholar must obtain CGPA ≥ 8.0 by the end of Term II to be considered for change of area.
- The research scholar must obtain the consent from the original area of specialization as well as the destination area.
- A research scholar cannot take transfer into an area to which s/he was originally rejected during the admission interview.

5.3.16. Mini Dissertation

The purpose of having a Mini Dissertation is to prepare the Ph.D. student for his/her final research. It is expected that through the Mini Dissertation, a Ph.D. student gains a sufficient grasp of the research work he/she wishes to perform in his/her Area. The Ph.D. student should narrow down his/her Area of interest and help him/her create a base for finalizing the topic of his/her thesis proposal. It is pertinent to note that the mini dissertation represents a visible concrete output and would have demonstrable potential enabling individuals to pursue further work on the theme. The Ph.D. student should organize and report the learnings gained in an in-depth systematic literature review undertaken in their field of research. The mini dissertation should be a substantive contribution to the Ph.D. student's knowledge as well as to his research topic through the integration of various literature sources in the domain.

The mini dissertation will be considered as equivalent to 6-credit area level course for the CGPA calculation and any other such requirements. The mini dissertation will be evaluated by the Mini Dissertation advisor himself/herself and another two faculty members to be nominated by the Chairperson (Doctoral Programmes) in consultation with the Ph.D. student's Mini Dissertation Advisor. In case of unsatisfactory performance in the Mini Dissertation work, the Ph.D. student would be given one more chance to submit his/her Mini Dissertation work within one month for re-evaluation from the date of first evaluation. After two unsuccessful attempts, the Ph.D. student's registration to the program will be cancelled.

For the second-year direct entry students, submission and evaluation for Mini Dissertation may be relaxed by two months, from the original deadline of the term completion of Term VI.

5.3.17. Academic Standards for Second Year

Students must obtain the following minimum academic standards during the second year to qualify for promotion to qualify for ACQE:

- i. A Minimum Average Grade Point of **6.50/10.00** for all area level courses in the second year.
- ii. A minimum CGPA of **6.00/10.00** in all courses credited overall in the programme.
- iii. Not more than 1 '**F**' OR 2 '**D**'s in all full credit equivalent courses credited overall in the programme.

Students who are direct entry to the second year are required to obtain a minimum CGPA of **6.50/10.00** for all the courses credited to meet the academic standards.

5.3.18. Completion of Course Requirements

All Ph.D. course instructors should complete their classes within the term in which the course is offered and submit the course grades (component of evaluation wise) within 15 days of the completion of the term to the Ph.D. office. Any dispensation is to be approved by the Ph.D. Chairperson. Students must finish all requirements of the courses within the term in which the courses are offered. Failure on the part of the student to finish all requirements within the planned date for completion of the course is likely to result in an 'I' grade in the course. If the 'I' grade does not get removed by the student within one month it would automatically get converted to 'F' by the Ph.D. office.

5.3.19. Review of Performance

Cases of students who do not meet the minimum academic requirements in terms of letter grade/grade points at the end of each academic year are reviewed by the respective Areas, and a recommendation is made to PC that would take the final call.

5.4. Area Comprehensive Qualifying Examination

The Area Comprehensive Qualifying Examination (ACQE) is conducted after completing course work to test whether the student has obtained a satisfactory level of knowledge in his/her field of specialization and ready to move to the thesis stage.

Each Area separately administers the ACQE for their students at the end of course work, i.e., completing term VI. The results of the exam are required to be announced within 1 month of ACQE. Ideally, in case of any exceptional circumstances leading to delay beyond the specified deadlines, the Area needs to seek approval of the Ph.D. Chairperson. The respective Areas would decide the examination requirements.

If a student cannot pass the ACQE, he/she would be asked to withdraw from the programme. Another chance may be given to the student to pass if Area recommends it. The Area should recommend to the PC for providing a second chance to the student within 15 days of the announcement of the result of ACQE. The second ACQE will be conducted within a month of the date of recommendation.

ACQE exam and Mini-Dissertation

ACQE exam

Area coordinators to arrange the ACQE exam respective area scholars on the following guidelines and submit the results to Ph.D. office.

1. One paper from research methodology – 50 marks
2. Three area specific courses – $50 \times 3 = 150$ marks
3. Viva Voice – 50 marks

The pass marks will be 60% in each exam.

The Viva-Voice shall be conducted by a team consisting of

1. Academic adviser

2. Available faculty from the respective area
3. Ph.D. Chair or its nominee from the committee
4. One faculty from other area to be nominated by Ph.D. committee in consultation with academic adviser

Mini-Dissertation

2. Area nominated faculty
3. Ph.D. Chair or its nominee from the committee
4. One faculty from other area to be nominated by Ph.D. committee in consultation with academic adviser

The mini-dissertation work shall be evaluated for 100 marks in two components as follows.

- a) Quality of work and report for 60 marks
- b) Presentation 40 in the presence of advisor and the nominated faculty

5.5. Academic Assistance

All Ph.D. students, after the successful completion of their comprehensive exam, must independently assist in four full credit courses or equivalent, in 3rd year and 4th year (postgraduate courses offered in the Institute/Ph.D. courses) a course is defined as a subject for one section in one term). Each area will recommend for approval to the PC the courses for Teaching Assistance-ship (TA-ship) by their Ph.D. students. The choice of course is then left to the student and the respective Area. All students are required to meet this requirement before they graduate, and they should inform the Ph.D. Office upon taking up TA-ship. For TA-ship, the student will be expected to conduct tutorial sessions, assist in preparing teaching materials such as presentations, simulations, class exercises, role-play games, quiz conduct, exam invigilation with faculty etc., assist in evaluations (except subjective written examination) and actively provide suggestions in the development of the course. Scholar can also teach during preparatory sessions for the newly admitted PGP/IPM students.

5.6. Thesis

5.6.1. Objectives

The thesis should be an original scholarly contribution to the body of knowledge in the student's chosen field of specialization.

5.6.2. Thesis Advisory Committee

After passing the comprehensive examination, the student identifies a topic for research and a thesis advisor who will guide him/her as Chairperson of his/her TAC. Normally, the committee consists of three or four members of which, at least two members are from the area of specialization internally from the Institute. The members are chosen to contribute to the thesis research in a complementary manner. The TAC Chairperson must be from the area and a full-time faculty member at the Institute. External expert or an academic from outside of IIMBG (both with Ph.D.) may also be a member of the committee as third/fourth member of TAC, but not the Chairperson of the TAC. Approval of PC and Director is required for taking an external expert as third/fourth member of a TAC. If TAC chairperson leaves, TAC as a whole would decide the next Chairperson one among themselves and a new member will be added to the TAC

Regarding selection of TAC Member from outside of IIMBG External expert – Member must be an Associate Professor or Professor in IIMs, IITs, IISc Bangalore, NITIE Mumbai, ISI Kolkata, IISERs, FMS Delhi, IGIDR or from foreign institution (THE 200 or QS Ranks 200) with Ph.D. in the appropriate related area.

5.6.3. Thesis Proposal Seminar

When the TAC agrees on the adequacy of the research question and design of the study, the student drafts a formal research proposal in the specified format. Following the submission of the proposal, the student gives a seminar to the research community of the institute. Following the seminar, the student has one month to submit the suitably modified final proposal approved by the TAC. The thesis proposal must be adhered to closely once it is submitted to the Ph.D. office. While minor departures are acceptable, a significant change in research design will need to be proposed again and the reason for this change explained to a committee constituted by the PC.

5.6.4. Timelines for Submission of Thesis Proposal

Thesis proposal has to be completed within nine months of the successful completion of ACQE. In case the student is unable to complete a grace period of three months is allowed during which

the stipend will be withheld. In case the student does not present his/her thesis proposal at the end of one year following the completion of ACQE, then he/she forfeits stipend from the period starting from nine months of completing the comprehensive exam, and the student may be asked to withdraw from the programme.

5.6.5. Duration of the Programme and Progress Evaluation Exercise

In general, the Ph.D. programme requires four years of full-time study. The student is expected to complete the programme in four years and is extendable to five years in two slots of six months each after a recommendation from TAC. However, in some exceptional circumstances, the PC may permit a participant to continue beyond five years, but not beyond seven years.

The student must present a research progress seminar and submit a progress report to the TAC at frequent intervals. The intervals for this assessment are as follows:

- From the date of acceptance of thesis proposal till completion of 4th year: Every 6 months
- From year 4 to year 5: every 3 months
- From year 5 to year 6: every 2 months
- From year 6 to year 7: every month

The TAC may decide on any extension based on the progress of the student from the progress evaluation exercise.

If a research scholar fails to complete the requisite academic works for the Doctoral Programme within this specified period, then s/he has to withdraw from the programme. The research scholar's registration will be terminated on the completion of seven years.

Research scholars are not permitted to take up employment / outside assignment during the programme. If violated, suitable disciplinary action including expulsion from the programme would be initiated by the Ph.D. Committee.

5.6.6. Pre-defence Seminar

The pre-defence seminar can be organized only after TAC approval. The student presents a pre-defence seminar to the TAC and incorporate the comments gathered in the thesis. The student should submit the final draft of the thesis within 6 months of the pre-defence seminar. Otherwise, the student will have to repeat the process.

Prior to the application for Pre-defence Seminar, a Ph.D. student is required to have publication(s) (either published or accepted for publication) in an acceptable refereed journal. The TAC Chairperson must certify that the above research paper(s) form a substantive part of the Ph.D. Thesis. The student is expected to publish one paper in ‘B’ or above category journal or two papers in ‘C’ category journals, as per the latest ABDC list of journals.

5.6.7. Final Draft Thesis Submission

After incorporating all the suggestions provided in the Internal Thesis Seminar, the research scholar submits the final draft thesis along with a detailed abstract of the thesis not exceeding 10 pages (both soft and hard copies) duly approved / certified by all the TAC members and as per the timelines mentioned in Appendix-I. The stipend of the research scholar will be stopped after the thesis is successfully submitted for evaluation.

5.6.8. Guidelines for Writing the Thesis

The research scholars may refer guidelines from APA manual of style³ in drafting their thesis in general, Scholars should refer guidelines mentioned in Appendix-II for writing of thesis.

5.6.9. Thesis Examination Committee

If the student’s pre-defence seminar is up to the satisfaction of TAC, his/her TAC Chairperson requests the Ph.D. Chairperson to appoint the Thesis Examination Committee (TEC). The Ph.D. Chairperson appoints the TEC consisting of TAC chairperson and three external members (one from the Institute and two from outside Institute). The TAC Chairperson will suggest six names to be invited to be on the TEC – two from the Institute and four externals (with Ph.D.) from outside the Institute. For the formation of TEC, the student must submit their abstract which is sent to TEC members for helping them to make their decision. The Ph.D. Chairperson will decide the constitution of the membership of the TEC and is not bound by the TAC Chairperson’s recommendations.

The role of TEC includes the following:

- i. Giving written feedback on the draft thesis submitted by the student,
- ii. Attending the defence seminar to be presented by the student and providing feedback,

For the formation of TEC, the student must submit their abstract which is sent to TEC members for helping them to make their decision. Also, the student should submit a copy (duly signed by TAC members) to every TAC member. The student should be ready to submit the final draft of the thesis immediately after the TEC formation. All TEC members will be requested to provide written feedback to the Ph.D. Office on the thesis draft within a month which will be shared with the student and the TAC Chairperson by the Ph.D. Office.

5.6.11. Thesis Defence Seminar

The thesis defence seminar is scheduled only after receiving written feedback from the TEC, submission of defensible draft and action taken report by the student, and indication from the TAC Chairperson that the comments received have been addressed by the student. Cut-off dates for thesis seminar and defence would be clearly identified each year by the Ph.D. office.

The student has to present the thesis defence seminar to the research community of the institute. In case the TEC feels that the candidate is not ready for the defence, they can suggest a later date. It is possible to have TEC members linking up on any internet-based video calling platform or through video conferencing. At least the presence of one external TEC member (from outside Institute) is required for the thesis defence seminar.

The TEC evaluates the acceptability of the thesis. Successful defence requires that the thesis is acceptable to at least all-but-one-member of the TEC. In case the student is unsuccessful in defending the thesis, then s/he is given one more chance to defend the thesis. The second chance is the final chance for the student to defend her/his thesis.

5.6.12. Final Thesis Submission

The TEC may suggest modifications to the thesis. After incorporating the suggestions, the student submits a soft copy (text readable PDF format) and two hard copies of the thesis (signed by the TEC Members) to the Ph.D. Office within 30 days of the successful defence of thesis.

THESIS EVALUATION GUIDELINES

The Ph.D. in Management at the Indian Institute of Management Bodh Gaya has 1.5 years of coursework followed by a Area Comprehensive Qualifying Examination. Upon successful completion of the course work, the research scholar works towards his/her doctoral work which culminates in the form of a thesis. Presentation of the thesis in a public seminar and successful defense of the thesis in an oral examination is a requirement for the award of the title “Doctor of Philosophy”. Accordingly, a Thesis Evaluation Committee (TEC) comprising of the three TAC (Thesis Advisory Committee) members of the research scholar and two external examiners is formulated for examining the thesis of the research scholar. The thesis is first examined by the TAC of the research scholar who certify the thesis to be original and worthy of examiners by external examiners. A thesis must be evaluated by two external examiners before the research scholar is permitted to proceed towards thesis defense. This document presents the guidelines for evaluation of the thesis of the research scholar before it can be submitted for the defense.

An external examiner is requested to evaluate the thesis on the basis of whether it contains an original idea or an original application of an existing idea and whether it is ready for a defense. The examiner may satisfy himself/herself as to whether the scholar has sufficiently exercised his/her mind and whether the overall quality compares favourably with doctoral dissertations in related areas. Importance must also be paid to the overall thesis as well as the robustness and rigor in the research method. The comments can be noted in the attached Thesis Review Form in the form of a narrative evaluation. An external examiner is requested to evaluate the thesis and submit his/ her report within 75 days from the date of receiving the thesis . In addition to providing a narrative evaluation, an external examiner is required to make an explicit choice of one of the following options with regard to the acceptability or readiness of the thesis for defense :

Category I: Accept without change

When all members of the Thesis Examination Committee (TEC) accept the thesis as Category I, the research scholar will go ahead for Thesis Defense / Viva-Voce Examination. A copy of the response document of the examiner(s), if any, approved by the TAC Chair should be submitted to the Ph.D. office. Ph.D. Office will arrange the Final Thesis Defense after receiving this document. The response to comments of the examiner should be presented during the Final Thesis Defense.

Category II: Accept the thesis conditionally with minor modifications

If one or more members of the TEC accept the thesis in Category II, the scholar will make the desired corrections within 30 days and TAC Chair will certify that minor changes asked by examiners, have been incorporated in the thesis by scholar and then the research scholar will go ahead for Thesis Defense Examination. A copy of the response document of the examiner(s) approved by the TAC Chair should be submitted to the Ph.D. office. Ph.D. office will arrange the Final Thesis Defense after receiving this document. The response to comments of the examiner should be presented during the Final Thesis Defense.

Category III: Resubmission after Changes

If one or more members of the TEC suggest Category III - Resubmission, the Thesis Advisory Committee (TAC) and the research scholar will meet to discuss the issues raised by the examiner(s). Scholar will make the desired corrections within 60 days. The TAC Chair will certify that changes asked by external examiners have been incorporated in the thesis by scholar. A copy of the response document of the examiner(s) approved by the TAC Chair should be submitted to the Ph.D. office. The corrected thesis along with the response document will be sent again to the same external examiner / both the external examiners. External examiner(s) will again evaluate the corrected thesis within 60 days from the date of receipt of the thesis. The defense will take place after acceptance of the revised thesis of the research scholar by the examiner(s). The response to comments of the examiner should be presented during the Final Thesis Defense.

If the examiner is not satisfied with the revised thesis, second round of correspondence should take place. In rare situations where the second round of correspondence is also not found to be satisfactory by the examiner(s), the Doctoral Program Committee can meet and decide on the next step on a case-to-case basis.

Category IV: Unacceptable

If one member of the TEC finds the thesis unacceptable, then the candidate needs to rework on the thesis and submit within a year. The time given for resubmission of a new thesis, however, should not be more than completion of seven years in the programme. The revised thesis will be sent again to the same external examiner/ both the external examiners. External examiner will again evaluate the revised thesis with 60 days from the date of

receipt of the thesis. If the TEC member(s) still finds it unacceptable the thesis will be rejected. A research scholar would be allowed to resubmit the thesis only once.

Thesis Defense / Viva-Voce Examination

After acceptance of the thesis, an oral examination (i.e. Thesis Defense) will be conducted by the Thesis Examination Committee (TEC) comprised of the TAC and the external examiner (s). The members of the TEC will evaluate whether the dissertation examined at the defense can categorically be certified as of the standard for the award of the title "Doctor of Philosophy". There can be one and only one dissent among the TEC members. If the TEC rejects the dissertation outright (with more than one member so rejecting), the scholar is dropped from the Programme.

After the defense, the research scholar will incorporate

- all modifications as addressed by him/her in response to queries raised by the examiner(s), and
- changes suggested during the defense, for which a maximum period of 30 days would be given to the research scholar from the date of the defense.
- The research scholar should then get the acceptance form signed by the Advisor(s), who will ensure that modifications/ changes have been incorporated, and submit three hardbound copies (one for Ph.D. Office and two for Library) and soft copy of the dissertation along with a letter from the Advisor(s) certifying that changes are made.
